

FASNY Museum of Firefighting

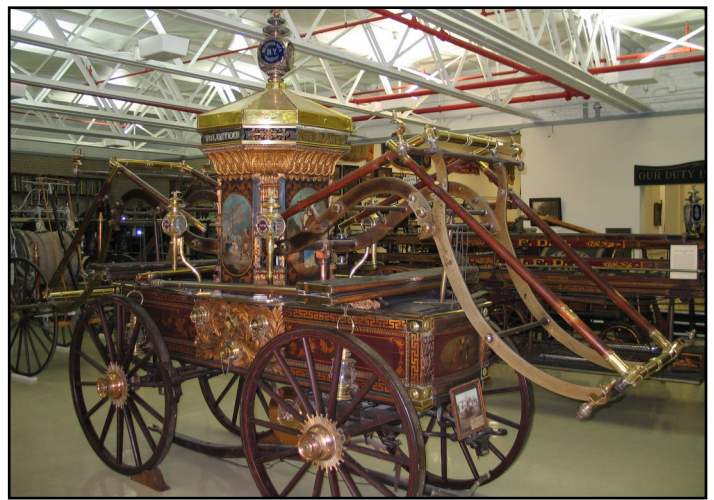

Guided Tours for Community Groups or Organizations

Please note: below is a general summary of what is offered for Museum guided tours; tours will be adjusted to fit your group's needs and interests.

History of Firefighting:

Ever wondered how firefighters went from fighting fires with buckets of water to operating the humongous fire trucks of today? Bring your group and learn all about the history of firefighting through an interactive tour. Then see if your group can beat the clock at the popular bucket brigade interactive. After the tour your group can explore America's interactive Museum of firefighting! The Museum has over 60 pieces of apparatus on exhibit, plus many more firefighting artifacts.
